B1. Review of Group Performance

	3 Months ended		Variance	
	31 March 2018	31 March 2017		
	RM	RM	RM	%
Revenue	61,761,337	59,149,828	2,611,509	4.4%
Profit Before Taxation	3,689,540	9,212,724	(5,523,184)	-60.0%
Profit After Taxation	2,532,373	6,852,228	(4,319,855)	-63.0%

For the current quarter under review, the increase in the Group's revenue was mainly attributable to higher progress billings from its construction and support services as compared to the corresponding preceding quarter. Overall, construction and support services contributed almost 100% of the Group's revenue for both the current quarter and preceding year corresponding quarter, at RM 61.69 million and RM 59.12 million respectively. The balance of revenue was derived from property investment.

Construction and Support Services

During the current quarter under review, the profit before taxation ("PBT") achieved by this division was RM 4.05 million or 6.56% as compared to RM 9.37 million or 15.84% during the preceding year corresponding quarter.

The decline in PBT during the current quarter under review versus preceding year corresponding quarter was a result of:

1. Profit recognition for the completion of a fast track project in the preceding year corresponding quarter;
2. Higher cost of sales, in particular, increased staff costs (+3.1%), depreciation charges (+2.7%) and materials (+2.2%);
3. The volume weighted average cost of diesel rose from RM 1.88 per litre to RM 2.02 per litre (+7.4%);
4. Higher administrative costs in the form of insurances for machinery and bank guarantee charges; and
5. Increased hire purchase interest.

The Group's profit after taxation ("PAT") recorded by this division was RM 2.53 million or 4.10% as compared to RM 7.01 million or 11.9% during the corresponding preceding quarter. This was mainly due to the reasons stated above and the provision for deferred tax during the current quarter under review.

Property Investment

For the current quarter under review, this division recorded a loss before taxation of RM 0.36 million versus RM 0.15 million in the corresponding preceding quarter mainly due to gain on disposal of property in the latter period.

B2. Comparison with Immediate Preceding Quarter Results

	3 Months ended		Variance	
	31 March 2018	31 December 2017		
	RM	RM	RM	%
Revenue	61,761,337	63,750,236	(1,988,899)	-3.1%
Profit Before Taxation	3,689,540	2,541,216	1,148,324	45.2%
Profit After Taxation	2,532,373	803,388	1,728,985	215.2%

During the current quarter under review, the decline in the Group's revenue was mainly due to lower progress billings versus the immediate preceding quarter. For the same period under review, the Group's PBT was higher as a result of lower cost of sales, in particular, reduction in subcontractors' fee as compared to immediate preceding quarter. The Group's PAT during the current quarter under review was also higher in line with the increased PBT and lower provision of deferred tax versus immediate preceding quarter.

B3. Prospects for the Current Financial Year

As a result of the recent outcome of GE14 and the change of government, several announcements have been made with regards to the review of existing mega infrastructure projects, the award of government projects via open tender or competitive bidding, the abolishment of tolls in stages and that Goods and Services Tax ("GST") will be zero-rated from 1 June 2018.

The Group does not expect any adverse impact to our existing infrastructure projects, namely West Coast Expressway and Sarawak Pan Borneo Highway, going forward as a result of such review. Moreover, the Group also expects to benefit from open tender for government projects based on the Group's proven track records for the past 25 years on quality and timeliness in terms of projects delivery. As for GST being zero-rated, the Group will certainly benefit in terms of cash flow related to monthly GST payment.

Hence, the recent change in government augurs well for the Group and it shall remain focused and committed in delivering projects in the current outstanding orderbook. Nevertheless, the Group has the resources to take in additional jobs and is confident to win several more projects in 2018 and such projects will contribute positively to the Group's earnings in the current and next financial years.

B4. Profit Forecast

The Group did not issue any profit forecast or profit guarantee for the financial period under review.

B5. Taxation

	Unaudited	
	31 March 2018	31 March 2017
	RM	RM
Income tax	514,392	2,360,496
Deferred tax	642,775	-
	<u>1,157,167</u>	<u>2,360,496</u>
Effective tax rate ⁽¹⁾	31.4%	25.6%

Notes:

- (1) The Group's effective tax rate for the current quarter was higher than the statutory tax rate of 24% mainly due to adjustment for deferred tax.
